

REMARKS

Claims 1-21 are in the case and presented for consideration.

Claims 6-10 have been objected to based on improper multiple dependency. Claims 6-10 have been amended to correct the improper multiple dependency and are believed to be in proper form.

Claims 1-5 and 11 were rejected under 35 U.S.C. 102(a) as being anticipated by U.S. Published Patent Application 2002/0186412 to Murashita.

Independent claims 1 and 11 have been amended to recite the linking “at a WAP portal”. On the other hand, Murashita discloses that a header of image data is input from the camera 10A to image data storage device 20A [0112] and that the position information received by receiver 22A of image data storage device 20A is written in the header of the image data received from digital camera 10A [0113-0114]. The linking is done in the header stored in the image data storing unit 21A [0114]. The linking is not done at a WAP portal.

Thus, claims 1 and 11, and all claims depending therefrom are believed to be patentable.

New independent claims 19 and 21 additionally recite elements or limitations not taught or suggested by the cited reference. In particular both independent claims recite communication between the mobile phone and the multimedia device. As shown in Fig. 6 of Murashita, both the user terminal 30A and the digital camera 10A communicate with the image data storage device

20A, but devices 30A and 10A do not communicate with each other.

Claim 20 depends from claim 19 and is believed to be patentable for at least the same reasons described above. Furthermore, claim 20 recites that the system further comprises a WAP portal which is not disclosed or suggested in the cited reference.

Accordingly, the application and claims are believed to be in condition for allowance, and favorable action is respectfully requested. No new matter has been added.

If any issues remain which may be resolved by telephonic communication, the Examiner is respectfully invited to contact the undersigned at the number below, if such will advance the application to allowance.

The Commissioner is hereby authorized to credit any overpayment or charge any fee (except the issue fee) to Account No. 14-1270.

Respectfully submitted,

/Yan Glickberg/
